

## **STRATEGY DESCRIPTION**

A tactical, actively managed portfolio of income generating structured notes from quality issuers. The strategy is suited towards income-focused investors and utilizes short-term, market driven changes in equity volatility to generate high levels of income using exposure to industry leading companies across diversified market sectors.

#### **USING VOLATILITY TO GENERATE INCOME**

Market events create opportunities that can be monetized via reverse convertible Structured Notes.

01	02	03
When seeking consistent income, investors typically turn to bonds, equity dividends, or real estate related income.	However, these are not the only potential sources – equity volatility* can also be used to generate investment income.	The strategy seeks to generate income by building a diversified portfolio of customized, incomegenerating securities known as reverse convertible Structured Notes.

#### **PORTFOLIO MANAGER**

Mr. Konrad is a founding and managing partner of Piton. He has extensive experience managing capital across a wide array of products and markets. Prior to founding Piton, he managed institutional capital, primarily centered around the Agency MBS market, for nearly two decades. At Piton, he currently is focused on delivering alternative yield enhanced products and customized solutions for clients.

(1) Portfolio Yield represents annualized yield based on monthly or quarterly coupons from notes issued at par value...

The yield numbers shown do not reflect potential deductions of investment advisory fees, brokerage or other commissions, and any other expenses that a client may have paid. The fees and expenses charged in connection with this investment may be higher than the fees and expenses of other investment alternatives and will reduce profits and increase losses.

The sample portfolio examples are hypothetical only, intended for illustrative purposes and do not represent securities in an existing Note. There are inherent limitations in using this illustration. It should not be assumed that any of the securities transactions or holdings shown will prove to be profitable, or that the investment recommendations or decisions made in the future will be profitable or will equal the investment performance of the securities discussed herein. The securities shown in this illustration may be changed or modified, terminated or supplemented at any time without further notice. The securities identified and described herein do not represent all of the securities purchased, sold or recommended for such Notes. Any yield projection estimates herein are forward-looking statements, are based upon certain assumptions and should not be construed to be indicative of the actual events which will occur. Other events which were not taken into account may occur and may significantly affect returns or performance. There can be no assurance that this sample portfolio will achieve its intended objective.

This document shall not constitute an offer to invest. Accordingly, this document should not be relied on in making any investment decisions. Any investment in a similar portfolio is speculative and involves risk. The strategies discussed in this document do not represent a complete list of all strategies offered. Any such strategies are presented strictly for informational purposes and should not be construed as a recommendation to buy or sell.

Prohibited distribution of the information specifically includes, without limitation, website, performance indices or similar databases. The information provided herein including without limitation investment yields, coupons and pricing, may be changed or modified, terminated or supplemented at any time without further notice.

While all of the information contained herein is believed to be accurate, there is no express warranty as to the completeness or accuracy nor an acceptance of responsibility for errors appearing herein. See Piton Investment Management's ADV Part 2 for more information.
